## Reason for Allowance

The following is an examiner's statement of reasons for allowance: in view of the amendment filed on 10-12-04, the prior art reference of records (US Pat. 6,697,205) fails to teach or fairly suggest a temperature detection circuit comprising: a reference current generator having a first PMOS transistor connected to a power supply voltage and to an op-amp, first to third resistors connected in series between the first PMOS transistor and the ground voltage and a first voltage generated between the first and second resistor as called for in claims 1 and 6; a temperature detection voltage generator for generating a temperature detection voltage in response to an ambient temperature and the output signal of the OP amp, wherein the temperature detection voltage generator comprises a second PMOS transistor having a source connected to a supply voltage and a gate connected to an output terminal of the OP amp, fourth and fifth resistors connected in series to a drain of the second PMOS transistor, and a diodeconnected PNP transistor provided between the fifth resistor and the ground voltage as called for in claim 12. Therefore, claims 1, 2, 4-8 and 10-15 are presently allowed.

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hiep Nguyen whose telephone number is (571) 272-1752. The examiner can normally be reached on Monday to Friday from 7:30am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Callahan can be reached on (571) 272-1740. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
